YOU GOO COOL

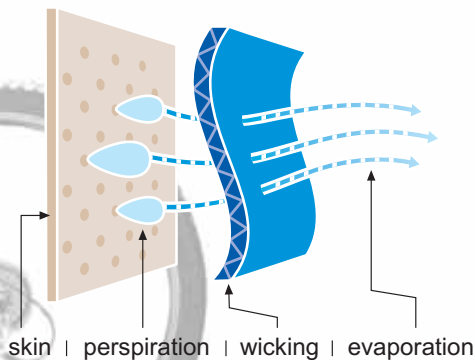

*Technically engineered for extreme temperature management and maximum breathability, ACTIVSKINS™ Hot/Cool garments are manufactured from state-of-the-art temperature-management fabrics. Hi-tech weave and structure combine with a unique capillary action to transport perspiration through the fabric away from the body. Perspiration evaporates, **keeping athletes fresh and dry.***

High performance and lightweight, ACTIVSKINS™ Hot/Cool garments are ideally suited to all types of physical activity in all weather conditions – and scientifically tested to **guarantee minimum UPF 40** against the sun's harmful UV rays.

With elastane throughout, ACTIVSKINS™ Hot/Cool garments provide absolute freedom of movement. With flatlock seams, ACTIVSKINS™ Hot/Cool garments incorporate the latest in antichafe technology, providing **ultimate comfort till the game is up.**
